

# Metal treatment

and Drop Forging (Established 1935)

## Index to volume 30

January to December 1963

Price 2s. 6d. post free

### ARTICLES

#### A

A.E. Group research and development ...	25
Aluminium, 1960-1970 ...	59
Annealing blackheart malleable castings ...	158
Anti-vibration mountings for forging hammers ...	401
Austenitic grain, the effect of aluminium on the formation and growth of ...	487
Automatically-controlled forging press, an ...	154

#### B

BISRA infra-red furnace ...	336
Brass, some problems on manipulation ...	73
Brief history of Leeds and Northrup Ltd., a ...	337
Britain's fifth strip mill, the Colville project ...	78
British Welding Research Association ...	328
Brittle fracture of mild steel ...	348

#### C

Carburized parts, compression blocks for ...	109
Carburizing and carbonitriding atmospheres, the generation and control of ...	263
Cast maraging steel developed by International Nickel Co. Inc., ...	290
Chromizing of pure iron and 2% copper iron sinters, the ...	385
Cold extrusion of steel, 500-ton press for ...	506
Cold extruding rear axle spindles ...	29
Cold heading, high speed ...	411
Cold-steel extrusion, research into ...	75
Colville project, the, Britain's fifth strip mill ...	78

Compression blocks for carburized parts ...	109
Computer analysis of microstructure ...	57
Controlled-atmosphere furnace ...	255
Cranfield—department of materials ...	271
Crystal studies by electron field emission ...	357

#### D

Daimler (Radford) works, heat treatment at ...	125
Drop-forging industry, future research in the ...	199
Dynapak high-rate forming machine ...	374

#### E

Effect of aluminium on the formation and growth of austenitic grain, the ...	487
Effect of hydrogen on the properties of large CrNiMo steel forgings, the ...	315, 359
Electron-beam furnace, a 200-kW. multi-chamber ...	407
Electron field emission, crystal studies by ...	357

#### F

Fatigue in metals using ultrasonic technique, study of ...	239
Fatigue, surface reaction during metal ...	110
50 years of stainless steel ...	370
500-ton press for cold extrusion of steel ...	506
Flame hardening in West Germany ...	105
Fluidized bath for use up to 350°C ...	76
Forged gear forms ...	83
Forging hammers, anti-vibration mountings for ...	401
Forging hammers, ground vibrations produced by ...	47, 116, 163

Forging industry, the new nature of business competition in the ...	135
Forging inspection device ...	213
Forging properties of pressure-poured steels ...	253
Forgings, the effect of hydrogen on the properties of large CrNiMo steel ...	315, 359
Forming, materials ...	413
Foundry in a work-bench box, a ...	338
Fully-automatic rotary-hearth furnace ...	296
Furnace control, problems of heat-treatment ...	63
Future research in the drop-forging industry ...	199

## G

Generation and control of carburizing and carbonitriding atmospheres, the ...	263
Ground vibrations produced by forging hammers ...	47, 116, 163

## H

Hafnium and zirconium quantitatively analysed ...	100
Hammer, high-speed double-acting hydraulic ...	461
Hammer in the modern forge, the ...	445
Hardening mechanism in 17-7 PH stainless steel ...	230
Heat treatment at Daimler (Radford) works ...	125
Heat treatment at Henry Simon ...	335
Heat-treatment forgings, recent installations for ...	507
Heat treating motor-cycle parts ...	171
Heat treating, ninth international discussion on. Lausanne, May, 1962 ...	11
Heat treatment of motor car parts ...	101
Heat treatment of transformer coreplates ...	484
Highlight in making malleable platinum, a ...	397
High-rate forming of metals ...	277, 305, 349
High-speed cold heading ...	411
High-speed double-acting hydraulic hammer ...	461
High-speed mechanical forging press, the ...	471
Hillman Imp, the ...	186

## I

Induction hardening of rolls ...	396
Industrial process heating exhibition ...	291
Institute of Metals ...	145
Interfirm comparison for management ...	31

## J

Joining pipes by explosives ...	124
---------------------------------	-----

## L

Lattice defects in copper single crystals ...	287
Leeds and Northrup Ltd., a brief history of ...	337
Literature review on thermo-mechanical treatments, a ...	3
Low thermal inertia furnace for stress relieving ...	246

## M

Maraging steels, working with ...	393
Materials forming ...	413
Metal deposition investigated for uranium ...	176

Metal forming by magnetic fields ...	160
Metallurgy at the NPL ...	248
Micro-hardness testing, new instruments for ...	450
Microstructure, computer analysis of ...	57
Morgan Crucible Group, new laboratories of the ...	421

## N

New instruments for micro-hardness testing ...	450
New laboratories of the Morgan Crucible Group ...	421
New nature of business competition in the forging industry, the ...	135
New steels for low temperatures, Cryomet 9 and 10 ...	418
Ninth international discussion on heat treating, Lausanne, May, 1962 ...	11
NPL, metallurgy at the ...	248

## P

Plastics in motor vehicles ...	327
Platinum, a highlight in making malleable ...	397
Problems of heat-treatment furnace control ...	63

## Q

Quenching media and their evaluation ...	321
--	-----

## R

Recent installations for heat-treating forgings ...	507
Residual stresses in metals ...	384
Rover-BRM, the ...	289

## S

Scaling of plain carbon steels in atmospheres containing sulphur compounds, the ...	427
Selection of tool steels, the ...	177
Shearing of bar and billet forging stock ...	437, 497
Sheet steel for building ...	504
Some notes on manipulating brass ...	73
Stress-corrosion studies of stainless steel ...	485
Structure anomalies in the surface zone of gas-carburized, case-hardened steel ...	219
Study of fatigue in metals using ultrasonic technique ...	239
Surface reaction during metal fatigue ...	110

## T

Tandem creep testing ...	426
Temperature measurement: Thermodynamic and practical scales ...	2
Test specimen extraction ...	112
Thermal and welding simulator ...	496
Thermo-mechanical treatments, a literature review on ...	3
Tinsley Park ...	453
Tool materials alternative to steel ...	343
Tool steels, the selection of ...	177
25 years of milling machines ...	300
200-kW. multi-chamber electron-beam furnace, a ...	407

<b>U</b>	
Uranium sheet	93, 147, 189, 232

<b>W</b>	
Wickman, 1938-63	377
Working with maraging steels	393

<b>BOOKS</b>	
Agglomeration	134
Casting Design Handbook	218
Forging Practice	218
Heat Treatment of Metals	84
Hydraulic Presses and Hydraulic Pressure Installations	134
Metallurgical Principles for Engineers	342
Metallurgy in Nuclear Power Technology	84
Metallurgy of Tool Steels, the	342
Progress in Materials Science	126
Purer Metals	84
Rolling of Strip, Sheet and Plate, the	134
Spectroscopy in the Metallurgical Industry	218
Strengthening Mechanisms in Solids	452
Tool Steels	127
Ultra-high-purity Metals	452
Ultrasonic Flaw Detection in Metals: Theory and Practice	134

<b>LEADERS</b>	
An eye on computers	469
British machines	133
British steel, 1963	1
East-West trade	261
Financing new metals	45
Financing research associations	301
Future of the forge	175
Industrial noise	341
Industrial training	217
Interfirm comparison	385
Steel standards	91
Tinsley steel	425

<b>NADFS</b>	
Annual banquet, 1963	502
Annual convention, 1963	302

<b>NEW PLANT</b>	
Automatic forging roll	340
Automatic high-vacuum heat-treating furnace	88
Briquetting and forging on one press	90
Direct analysis of oxygen content	88
Dry-film, bonded lubricant for extreme temperatures and high vacuum	260
Electron beam unit	380
Extra high yield-stress steel	132
Forced-circulation ovens up to 700°C	130

Glass-filled nylon	238
Heat-resisting furnace bearer bars	90
High-precision rotary feed unit	260
High-intensity magnetic forming	24
High-temperature vacuum furnace	132
Horizontal upset forging machines	42
Hydraulic stretch straightener handles high-speed steel	340
Industrial X-ray film in new pack	88
Laboratory furnace for charging steel with hydrogen	130
Metal powder data sheets	88
Modular vacuum unit	260
New diamond tool for metallurgists	510
New hot-work steel	380
New lubricant for steel extrusion	468
New steel for ball bearings	369
Precipitation-hardened tailhook for jet planes	157
Production recording system	130
'Pulse' goggles and face shield withstand rifle shot impact velocity of 500ft./sec.	380
Quick measurement of grain size	153
Quick method of chemical analysis for aluminium alloys	300
Roller hearth furnace with built-in quench	132
Silit high-temperature elements now supplied by Efco	256
Temperature recording control	380

<b>PEOPLE</b>	
Bailey, Dr. G. L. J.	216
Childs, Thomas W.	424
Everest, Dr. A. B.	216
Fallon, John	378
Faulkner, Vincent C.	115
Frith, J. G.	464
George, F. B.	216
Hall, Dr. Charles	424
